AFFORDABLE
Less expensive than
electronic detection
systems

CERTIFIED
Meets or exceeds
designated threshold
levels of detection
outlined in U.S. Military
specifications

DEPENDABLE
Used in the field for
over 35 years. No
batteries or
calibration... ever

LONG-LASTING
5-year shelf life

PORTABLE
Easy-to-carry,
easy-to-use

Detection & Decontamination Kit

The Key Defense Against Chemical Warfare Agents™

Luxfer Magtech Inc. has been providing chemical detection and decontamination products to the U.S. Military since 1979. These products are being made available for the first time under the **KeyDefense™** brand name to emergency responders.

**Inspired by the U.S. Military
Designed for Emergency Responders**

KeyDefense™ is manufactured and marketed by Luxfer Magtech Inc. (LMI), a wholly owned subsidiary of the Luxfer Group. From locations in Riverhead, New York, and Cincinnati, Ohio, LMI produces:

- Chemical agent detection and decontamination products for use by military and civilian agencies.
- Magnesium-based heating devices for self-heating meals used by the U.S. Military with Meals, Ready-to-Eat™ in the field.
- Extensive line of self-heating meals, soups and beverages. HeaterMeals® and Cafe2Go® products are used by the military, the Federal Emergency Management Agency (FEMA), the Red Cross and many other disaster-relief agencies. Our product lines are favorites of first responders around the world, as well as campers, hikers and other outdoor enthusiasts.
- Van Ben™ seawater desalination kits.
